Contact	hello@scentroom.com.au

IFRA CATEGORY 4

Category 4 covers fine fragrances applied directly to the skin as leave-on products, including extrait de parfum, eau de parfum, and parfum. This category carries the most stringent IFRA limits for skin-applied products and is the applicable category for this product.

FRAGRANCE COMPOUND CERTIFICATION

The fragrance compound used in this product is supplied by a member of the International Fragrance Association (IFRA). An IFRA Conformity Certificate has been issued by the supplying fragrance house confirming this compound is compliant with the IFRA 51st Amendment for Category 4 at a maximum usage level of 100%. This product uses the compound at 30%, well within the certified limit.

RESTRICTED AND DECLARABLE INGREDIENTS

The following ingredients present in the fragrance compound are subject to IFRA restrictions or disclosure requirements. All are confirmed within permitted limits for Category 4 at the usage level of this product. Exact concentrations are commercially confidential.

PROHIBITED MATERIALS

This product contains no IFRA prohibited materials. No nitromusks, no oakmoss (*Evernia prunastri*) above permitted limits, no treemoss (*Evernia furfuracea*) above permitted limits, and no other IFRA prohibited substances.

COMPLIANCE DECLARATION

Scent Room hereby declares that the fragrance compound used in Scent Room Libre Extrait de Parfum (SR-EDP-LIBRE-100ML) has been assessed against the IFRA 51st Amendment for Category 4 (Fine Fragrance, leave-on skin application). The fragrance compound is supplied by a certified IFRA member fragrance house with full IFRA Conformity Certification confirming compliance at Category 4 up to 100% usage. This product uses the compound at 30%, providing a substantial safety margin. All restricted fragrance ingredients are used within their permitted limits for Category 4 at the applicable usage level. This product contains no IFRA prohibited substances. This declaration is made on the basis of internal assessment by Scent Room supported by IFRA Conformity Certificate held on file (Issue Date: October 2024).
